SKIN CARE

Inspired by the geometric masterpieces of Cubism, our serum reflects the diversity of perspectives and the harmony between form and function. Just as cubist art combines various elements into one image, we unite luxury and holistic care in a single product. Our formula, enriched with moisturising ingredients like HYDROVANCE®, not only improves your skin's cell metabolism thanks to GENENCARE® OSMS MI, but also protects your skin against environmental impacts with Synastol® TC. To complete the picture, Ayuredi® combines well-aging and soothing properties in one active ingredient.
