

Guaifenesin

For meds to relieve chest congestion

Guaifenesin is an ingredient in cough and cold medicines that is used to help clear mucus or phlegm from the chest in case of a cold or flu. Guaifenesin works by making the mucus thinner and easier to cough up, which helps clear chest congestion.

Biesterfeld is the exclusive CEP holder for Guaifenesin from Zhejiang Haizhou Pharmaceutical Co., Ltd. With our well-established and stable business across Europe, we can offer you highly competitive pricing and reliable supply. Our long-term partnership with Haizhou ensures security in sourcing, extensive documentation, and short lead times thanks to our European stock.

Key benefits at a glance:

- › **Material has CEP:** This means relatively easy access to dossiers. Biesterfeld Spezialchemie GmbH is the exclusive CEP holder for Guaifenesin from Chinese producer Zhejiang Haizhou. CEP is constantly maintained.
- › **GDP certified warehousing structure in Europe:** We hold security stocks in our warehouse for fast and reliable deliveries. Furthermore, Biesterfeld is officially GDPAPI certified.
- › **High Capacity:** Zhejiang Haizhou has an annual production capacity around 1200 MT, with 300–400 MT available for new customers / projects.
- › **Logistic service:** Worldwide support along the supply chain, thanks to our established distribution business with global partners.
- › **Quality:** We can provide US-DMF & GMP certifications, as well as other regulatory documentation in addition to samples for further approvals.
- › **Availability:** API and DC grades available.
